Condiciones Comerciales:

- El precio incluye 1 (una) entrega sin costo en territorio nacional.
- Tiempo de entrega: **Por confirmar**
- Los precios están en Moneda Nacional MXN
- La garantía es otorgada en términos y condiciones establecidos por el fabricante.
- Los equipos no tienen garantía en partes eléctricas (como fuentes de poder etc.)
- Esta cotización tiene una validez de 15 días hábiles a partir de la fecha de emisión de cotización.
- Condiciones de pago: **Crédito/Contado**
- Los precios están sujetos a cambio sin previo aviso
- Si el importe facturado no es pagado a su vencimiento, causa intereses moratorios del 4% mensual
- **No hay cancelaciones de órdenes una vez colocada con CISCO.**
- Para el caso de requerir de una recomendación de nuestro departamento de ingeniería para esta u otra solución, deberá solicitarla de forma expresa, y Westcon en un documento anexo se la hará llegar, en el entendido que solo en ese caso podremos apoyarlo para su correcto funcionamiento, en caso contrario, la garantía de funcionamiento del equipo será responsabilidad del fabricante.

Using this Excel template, you can change the column headings text, cell styles, add logos, header, footer and include additional columns and customize the base template. For more help on how to edit the template, use the online Help inside the template itself by clicking on the Help hyperlink in the left column.
After editing the template, save it on the local disk and upload it on CCW.

This template has three sections - a)Template Elements b) Report Header c) Report Data Table

a) Template Elements -

The content in the column A of the template is required by the system to generate the report. This content is not editable, and there should not be any additional content included in the column A.
Following are the template elements in the column A and their significance -

Element	Required/ Optional	Description
START_REPORT	Required	Indicates the start of report
START_TABLE	Required	Indicates the start of report table, which will have the configset data
TABLE_DATA_FIELD_MAPPINGS	Required	Shows the mapping of data fields to the table columns, refer the avaiabel columns that can be included
CELL_CUSTOM_FORMAT	Optional	Cell format setup for table columns
CELL_DEFAULT_VALUE	Optional	Default value for cell format of table columns
TABLE_HEADERS	Required	Column names, can be renamed
GROUP_BY_ITEM_TYPE	Optional	Grouping of table data, supported values are GROUP_BY_ITEM_TYPE and GROUP_BY_HIERARCHY(default)
MAJOR_LINE_FORMAT	Required	Cell format for major line row. User can modify the font, style, cell border, colors etc.
MINOR_LINE_FORMAT	Optional	Cell format for minor line row. User can modify the font, style, cell border, colors etc. If not defined then default is that of major_line_format
SERVICE_LINE_FORMAT	Optional	Cell format for service line row. User can modify the font, style, cell border, colors etc. If not defined then default is that of major_line_format
INCLUDE_GROUP_BY_SUBTOTAL	Optional	Includes sub total row for a group, user can change the cell formats
INCLUDE_CONFIGSET_TOTAL	Optional	Includes the grand total for the configset, user can change the cell formats
END_TABLE	Required	Indicates the End of table
END_REPORT	Required	Indicates End of report

b) Report Header

This section includes configset header attributes and is placed on top of the report table.
The report template comes with a list of standard header attributes. You can include additional attributes from the list of available custom header attributes.

For example "Configset ID:" is the label for the header attribute which will appear in the report, and the {configsetid} is the container for the actual value (numeric) of the configset ID.
It is required that any standard or custom header attribute should be placed within curly brackets or braces for it value to show up in the report.

Following is the list of available Header Section Custom Columns

3) Report Data Table

This section includes the actual data in the report, and the table column headers.
The report template comes with a table having standard header attributes. You can include additional columns in the table from the list of available custom columns.
For example "Item Name" is the label for the header attribute which will appear in the report, and the {productName} is the container for the actual name of the item.
It is required that any standard or custom header attribute should be placed within curly brackets or braces for it value to show up in the report.
