Notes:

Sound Control Technologies™ (SCT) redefines traditional conferencing and BYOD workspaces with SCTLINK technology, delivering power, video, audio, USB, control, and Ethernet—all over a single CAT cable.

At SCT, we understand that power drives performance. Our expertise in delivering efficient, reliable, and safe power—ranging from 5VDC and 12VDC to USB-PD and PoE up to PoE++—ensures your connected devices run flawlessly.

We specialize in camera and codec extension solutions for industry leaders like Cisco®, Poly®, Logitech®, Panasonic®, Sony®, and more. With our all-in-one table and camera connectivity kits, versatile mounting solutions, and durable rack shelves, we provide everything needed for smooth, quick, and cost-effective installations.

For more information, visit us at www.soundcontrol.net.
