

PWB-320 / PWB-323

Project Wall Boxes

FSR

Metal Products Group

PWB-320 / PWB-323

(Shown with optional equipment installed)

Optional PWB Cooling Fan Available

DESCRIPTION

These economical, large opening wall boxes are designed to fit in 16" on center stud bays. Their design simplifies audio video and IT installations by providing space for routing cables, AC power connections, and digital media products. The PWB-320 is for 4" stud walls and has up to 2" KO's. The PWB-323 is for 3" stud walls and has up to 1 1/4" KO's.

All boxes come standard with 8 flush cable-tie mounts, 6 Triple-Play mounting solutions for AC/AV/IT, 6 IPS mounting openings, a grounding screw, steel stud mounting brackets and hardware for new or old-work wood or steel stud walls.

The PWB-32x-TRK kit includes all of the above features plus a powder coated trim ring for dressing the dry-wall opening. This rounded trim ring provides a generous 7/8" overlap.

The PWB-32x-ESK kit includes the above TRK features and an internal shelving system. Two adjustable shelves include a hole pattern that allows for any screw spacing from 3/8" to 1 3/4" including multiple VESA 100 hole pattern locations.

The PWB-320-CV is an optional powder coated cover with rounded cable exits. The vented cover mounts to the trim ring with four tool-less snap fasteners to allow quick access to the equipment inside.

There are optional internal AC brackets available with 2 or 3 Decora Spike Shield™ 15-amp surge protected receptacles. See ordering table for model numbers. Need to keep your equipment cool while in the wall, our optional PWB-320-Fan will do just that. The PWB-320-FAN is a variable speed temperature controlled fan option for the PWB-320 and 320XL wall box. It is designed to maintain an internal box temperature below 40°C with a 100 watt thermal load keeping internal equipment at a safe temperature.

APPLICATIONS

- Digital Signage
- Hospitals
- Conference Centers
- Schools
- Airports
- Command Centers
- Electronic Billboards
- Museums
- Arenas

FEATURES

- Mounts to wood or steel studs, 16" centers
- No extra parts needed for New or Old work installations
- Can be ordered individually or in 3 different kits and in 2 depths
- Optional painted cover with cable exits and tool-less fasteners
- Up to 2" KO on PWB-320
- Up to 1-1/4" KO on PWB-323
- Six IPS mounting openings
- Eight Flush cable-tie mounts
- Six Triple Play Mounting Solution openings per box
- Optional Cover and Trim Ring available separately
- Optional (2) adjustable component shelves with position lock
- Optional AC power brackets with 15-amp surge protected receptacles
- Optional thermostat controlled variable speed fan

FEATURES / DETAILS

TRIPLE PLAY KNOCKOUT SYSTEM

VESA 100 MOUNTING PATTERN

FSR PWB boxes are punched in six locations with FSR's Triple Play Mounting Solution which provides three different options for mounting conduit, cabling, plates, and back boxes to our wall boxes.

FSR's patent-pending Triple Play Mounting Solutions:

1. Conduit can be run directly to the Center 1" & 1 1/4" Concentric Knock Out
2. Punched & Tapped for Low-voltage Class-2 box-less plate mounting
3. Tapped to mount standard single gang low-voltage boxes

SHELVING FEATURES

Shelving location and depth can be adjusted as well as mounted in horizontal or vertical orientation
