

CEN-SW-POE-5 5-Port PoE Switch

DO Install the Device

The CEN-SW-POE-5 can be mounted onto a rack rail or onto a wall.

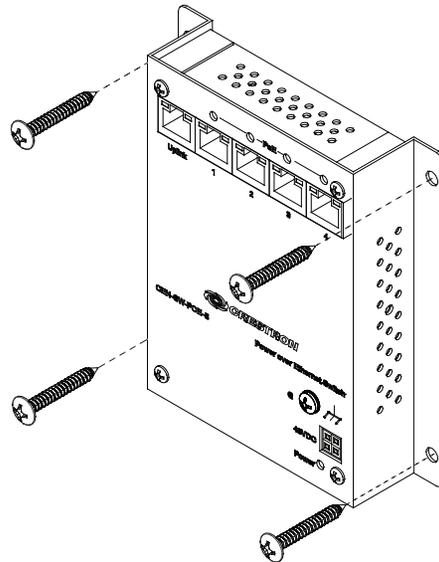

Mounting onto a Rack Rail

Using the the two included 5 x 20 ISO pan head Phillips rack screws with washers, mount the device onto a rack rail.

Mounting onto a Wall

Using the four included 3/16" x 1 1/4" pan head Phillips drywall screws, mount the device onto a wall.

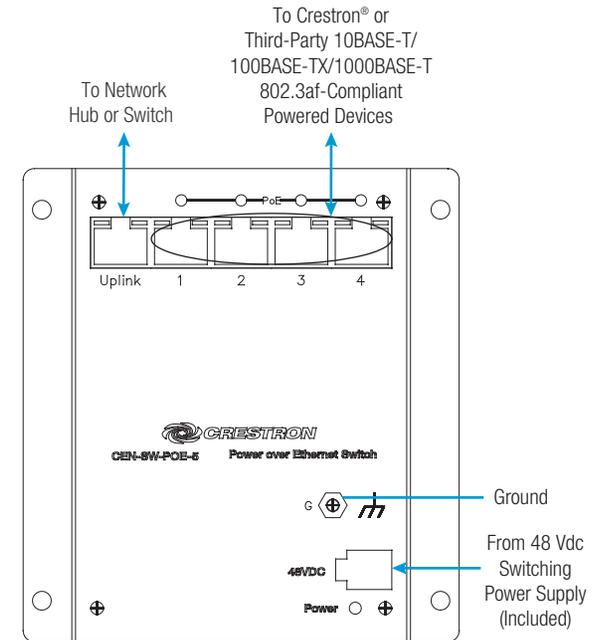

DO Check the Box

QTY	PRODUCT	PART NUM.
1	Switching Power Supply, 48 Vdc 1.25 A, 100-240 Vac	2021168
1	North American IEC Power Cable	2021169
2	5 x 20 ISO, Pan Head Phillips Rack Screws with Washers	2021170
4	3/16" x 1 1/4" Pan Head Phillips Drywall Screws	2021171

DO Make Connections to the Device

Make connections to the CEN-SW-POE-5 as appropriate for the application.

NOTE: To ensure proper operation of all PoE devices connected to the CEN-SW-POE-5, Crestron® recommends that the ground screw be properly connected to ground. Failure to do so can cause unexpected results when using PoE devices.

 As of the date of manufacture, the product has been tested and found to comply with specifications for CE marking.

 **Regulatory Compliance**
This product is Listed to applicable UL Standards and requirements by Underwriters Laboratories Inc.
Conformité Réglementaire
Ce produit est homologué selon les normes et les exigences UL applicables par Underwriters Laboratories Inc.

This unit is for in-house use only, not for outside of building.
Cet appareil est destiné pour utilisation dans la maison seulement, pas pour l'extérieur du bâtiment.

Mechanical Loading: Mounting of the equipment in the rack should be such that a hazardous condition is not achieved due to uneven mechanical loading.

Chargement Mécanique: Montage d'équipement dans le rack doit être telle qu'une situation dangereuse n'est pas liée à cause d'un chargement mécanique irrégulier.

Federal Communications Commission (FCC) Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions:

(1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help
