Remember, a typical laptop USB 3.0 port only provides 900mA.

POWERED 4-PORT USB 3.0 HUB

This portable USB hub turns one of your computer's USB ports into four for device charging and data distribution. We have added a micro USB port for additional power insertion that can be accomplished using the provided external power supply. Easily add up to four devices; with the Liberty USB hub every port is equipped with USB 3.0 technology capable of transferring data at speeds of up to 5 Gbps. The combination of a USB-A or USB-C using an adapter allows one device to be compatible with a variety of personal devices, saving time, confusion, and cost.

FEATURES

- Instantly grow one USB 3.0 port into four, each equipped with USB 3.0 backward-compatible technology, capable of data speeds up to 5 Gbps.

- Connect multiple USB peripherals to a personal device, including web/PTZ cameras, microphones, capture cards, etc.

- Package includes USB-C adapter and optional external power supply, allowing for pure flexibility.

- Add the necessary current for high-power devices, sharing 2 A between ports when using external power supply.

For typical power reference, the below devices are often rated as follows:

- Mouse: 100mA

- Keyboard: Max. 500mA

- Web Camera: 480mA

- USB Microphone: 480mA

- Portable Hard Disk: Max. 500mA

- USB 3.0 Portable Hard Disk: Max. 900mA
