C2N-DBF12

Decorator Function Keypad

The Decorator Series C2N-DBF12 Function Keypad provides a cost-effective solution for controlling a Crestron® Multiroom AV distribution system. It is identical to the C2N-DB12 12-Button Decorator Keypad except that it includes a set of 30 assorted button caps pre-labeled for AV source selection and basic control functions.

For enhanced control using direct numeric entry for channel and track selection, add the C2N-DBN12 Numeric Keypad.

Please note, the almond smooth (-A-S) and white smooth (-W-S) finishes currently offered are not the same as on older almond (A) and white (W) models. When ordering, please be sure to specify the model number exactly as shown in the price list or on the "Models & Accessories" tab. If you require buttons or keypads to match the older almond or white finishes, please contact your Crestron representative.

> A decorator-style wall mount keypad with 12 buttons

> Includes 30 pre-labeled button caps for basic AV system control

> Enables selection of six AV sources

> Enables control of power, volume, mute, and incremental channel or track selection

> Optional numeric keypad for direct entry of channel or track, sold separately

> Red LED feedback indicators

> Fits standard electrical gang boxes and faceplates

> Available in smooth almond, black, and white finishes

> Cresnet® wired communications
