

## BDL PN41-8G-240G

|                        |                                                                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Operating System       | Soporta:<br>Windows 10 Pro<br>Windows 10 Home<br>Windows 11 Pro<br>Free Upgrade to Windows 11 <sup>1</sup> (when available, see below);<br>Barebone and Non-OS SKUs are excluded |
| CPU                    | Intel® Celeron® N4500 Processor 1.1GHz (4M Cache, up to 2.8GHz)                                                                                                                  |
| Chipset                | Integrated - Intel HD Graphics<br>Intel® UHD Graphics for 11th Gen Intel® Processors                                                                                             |
| Graphics               | Intel® UHD Graphics for 11th Gen Intel® Processors                                                                                                                               |
| Memory                 | 8GB DDR4 3200MHz SO-DIMM, con dos bancos de memoria, soporta hasta 64GB RAM                                                                                                      |
| Storage                | 240GB SSD 2.5" incluido, tambien soporta NVMe M.2 slot desocupado                                                                                                                |
| LAN                    | 2.5G LAN, Realtek® RTL8125B-CG                                                                                                                                                   |
| Audio                  | Realtek® ALC897 or ALC3251 HD Audio CODEC(optional)                                                                                                                              |
| Side(Front) I/O Ports  | 1 x USB 3.2 Gen1 Type-C, 1 x USB 3.2 Gen1, 1 x Audio Jack                                                                                                                        |
| Back I/O Ports         | 1 x mini DP 1.2, 2 x USB 3.2 Gen1, 1 x HDMI 1.4 Port, 1 x Configurable Port (options: Display Port 1.4/COM/ VGA/ LAN), 1 x RJ45 2.5G LAN, 1 x DC-in                              |
| Configurable I/O       | Puerto COM                                                                                                                                                                       |
| Speaker                | No                                                                                                                                                                               |
| Power Supply           | 19Vdc, 3.42A, 65W Power Adapter                                                                                                                                                  |
| Dimensions (W x D x H) | 115 x 115 x 49 mm                                                                                                                                                                |
| Weight                 | 700g (include 2.5" HDD)                                                                                                                                                          |
| Color                  | 700g (include 2.5" HDD)                                                                                                                                                          |

|              |                                                                                                                                                                                                                                                   |
