CTL® Chromebox CBx2 Series
i7 Processor For High-Powered Performance Users

http://ctl.re/cbx2-7

A high-powered solution for your work or home set-up.

- Higher-powered Intel® i7 Processor allows for seemless productivity and task management.

- Sleek and compact hardware allows users to mount on virtually any monitor or display.

- Search and stream UHD media at faster speeds with Intel® Wi-Fi 6 AX201 for high quality connection.

- Various USB inputs allow access to external drives, HDMI ports connect to display panels and Bluetooth 5.1 pairs with external devices wirelessly.

- 8GB DDR4 Memory (16GB upgrade available) and 128GB eMMC Storage

- Custom paint options add personalization

- AUE extends until June 2028

FEATURES & BENEFITS

A high powered computing solution that provides the functionality of a desktop in one compact, sleek design. The Intel® i7 Processor is built to handle the demands of the work day, while the hardware is equipped with various ports to access external media.

In addition to its productivity features, the CTL Chromebox CBx2-7 can be used for gaming, digital signage, POS systems, kiosks, call centers and more. The CBx2-7 can easily connect to displays, audio hardware and keyboard devices with HDMI input or wirelessly via Bluetooth 5.1.

This versatile, cloud-based device has super fast boot-up and automatic updates, making it easy to manage remotely. Browse a variety of apps in the Chrome Web Store and enjoy streaming your favorite HD media with seamless connectivity. Know your device is protected with built-in safety features and a Kensington lock slot for added security.

Mount it on a CTL monitor to make it an All-In-One solution for your work space or home set-up. You can even personalize the CBx2-7 with our four custom color options to choose from.
