

Burelé

BYRNE

Burelé®

Work no longer happens just here. Or only there. Now, people talk across an ocean as easily as sharing a conference room. It's all about connection. That's why Burelé lives up here on the worksurface—where work gets done. With blended power options, including USB-C for phones, tablets and more. And while it's up here, it's free to express itself, with patterned cords and lids that can be personalized with color, artwork, messaging... whatever inspires you. It's your power, after all.
