

Google Meet

We build durable, reliable, and secure Chrome products and provide tailored, end-to-end solutions from education to corporate customers. Whether you need updated video conferencing systems or comprehensive Chromebook deployments, power on with CTL.

## Meet Compute System GQE15C

### Redesigned from the ground up

With a slim design & high-powered performance, this compute system is designed by Google for Meet.

- Slimmer, modern design
- Single-side ports for easy cable access & management
- Innovative magnetic wall mount & desk stand
- New Chrome OS variant optimized for Meet

### Enterprise grade — made for Meet

Created with enterprise grade reliability & security in mind.

- Enterprise grade manufacturing with rigorous testing
- Extended device lifespan & support for prolonged use
- Auto-updating, Meet-specific version of Chrome OS
- On-device encryption & verified boot self-check
- Intel i7 processor with 4GB RAM with 128GB SSD

### Simplified installation

Built for speed & scalability with multiple mounting options & easy access to ports.

- The slim design for mounting behind displays
- New upright desktop stand
- Magnetic mount for easy mounting & installation
- VESA compatible wall mount
- Ultra-fast boot up & setup

## Meet Compute System GQE15C

### Performance

**Processor**  
10th Gen Intel® Quad-Core  
i7-10510U CPU

**Frequency**  
1.80 Ghz base  
4.90 Ghz max turbo

**Cache**  
8 MB Intel® Smart Cache

**Memory and Storage**  
8 GB RAM  
Up to 64 GB LPDDR4

**Graphics**  
Intel® UHD Graphics  
Max resolution: 4096 x 2304  
4k support

**OS**  
Chrome OS

### Design

**Dimensions**  
7.8" (w) x 4.84" (d) x  
1.14" (h)

**Weight**  
1.5 lb.

**Security**  
Kensington lock

### Connectivity

**Rear I/O ports**

- Barrel Jack (Power)
- 1x USB-C
- 1x HDMI
- 5x USB 3.0

**Wireless**

- WiFi 6 (802.11 ax)
- MU-MIMO
- BT 5.2 with max speeds up to 2.4Ghz

**Model & SKU**  
Model: GQE15C  
SKU: CBXUS190005
