

# DTEN Mate

## Solutions Overview

### Intuitive Control, Scheduling and Management of Zoom Rooms

The DTEN Mate provides an intuitive and easy to use solution for controlling and managing Zoom Rooms, ready to operate as either Zoom Rooms Controller (ZRC) or Zoom Rooms Scheduler (ZRS). With a single tap of the screen, users can launch meetings, admit participants, browse meeting schedules, adjust camera and microphone settings and so much more.

Today, the DTEN Mate is available two ways: as a wired PoE solution, DTEN Mate (PoE), or as a wireless device, DTEN Mate (Wi-Fi).

#### Which Mate Should I Choose?

The stationary **DTEN Mate (PoE)** utilizes a single Ethernet cable for networking and power. It is designed to be mounted permanently to a wall or tabletop.

The wireless **DTEN Mate (Wi-Fi)** connects to the Zoom Room wirelessly and can be lifted from the DTEN Mate Dock. It charges via USB-C within the DTEN Mate Dock.

	DTEN Mate (PoE)	DTEN Mate (Wi-Fi)
Available Operating Modes	Zoom Rooms Controller / Zoom Rooms Scheduler	
Wireless Operation	Yes	Yes
Wired (Ethernet) Connectivity	Yes	No
Power	Ethernet (RJ-45)	USB-C (via DTEN Mate Dock)

## Versatile Control and Resource Management

### SOLUTION OVERVIEW

## Designed for Security, Reliability and Easy Resource Management

Today's busy hybrid workspaces and meeting rooms can get complicated- for both users and IT teams. We're in the office, out of the office, jumping into huddle sessions and kicking off company-wide all-hands meetings across time zones and doing our best to maximize meeting equity for all.

So let's take the guesswork out of scheduling, launching and managing meetings so we can focus more on the meeting itself.

### Built for Convenience, Versatility and Security

The DTEN Mate (PoE) is a highly secure, reliable and intuitive solution for use as a Zoom Rooms Controller (ZRC) and Zoom Rooms Scheduler (ZRS). With a single tap of the screen, users can launch meetings, admit participants, browse meeting schedules, adjust camera and microphone settings, and so much more.

Users will love the DTEN Mate, whether deployed as the in-room meeting control and command center or informative scheduling display- and with a dedicated Ethernet connection for networking and power, IT teams will too.

### Intuitive Touch Interface

### Centralized Device Management

### Easy to Set Up, Simple to Use

Not already using a DTEN device for your Zoom Rooms experience? No problem - the Mate gets along with everyone.

The DTEN Mate (PoE) is compatible with any device using Zoom Rooms so you can take advantage of all these product benefits in Zoom Rooms Controller (ZRC) mode.

As Zoom Rooms Scheduler (ZRS), Mate will pair with a room resource and allow users to book the room, view room status, or schedule a future meeting session.

### Intuitive Control and Resource Management

- As Zoom Rooms Controller (ZRC), DTEN Mate (PoE) provides one-tap to start Zoom meetings, admit participants, adjust camera and microphone settings, and much more
- The DTEN Mate provides flexibility - whether you want to use it outside the conference room for scheduling or inside for convenient control of Zoom meetings

### Designed for Flexibility and Versatility

- With its easy-to-install wall-mountable DTEN Mate Dock, the DTEN Mate can be used to reserve meeting rooms and see what other rooms are available within a company's office
- Automatic screen flip technology and clever product design enables a mounting at 20° or 77° for a range of use cases

### Convenience, Reliability & Enhanced Security

- Includes locking security bezel for tamper-proof mounting on tabletop, walls and hallways or in shared multipurpose spaces
- Supports 802.1X for network security and flexibility around provisioning and managing devices on the network

### DTEN Mate (PoE)

- Versatile Zoom Rooms Controller (ZRC) or Zoom Rooms Scheduler (ZRS)
- Ready to interface with any other certified Zoom Rooms appliances
- LED 10" Capacitive Multi-touch Display
- Lightweight at less than 1 lb
- DTEN Mate Dock can be positioned at either 20° or 77°
- The DTEN Mate Dock comes with mounts for both walls and door frames

## True Collaboration Mobility

### SOLUTION OVERVIEW

## Designed for Mobility, Flexibility and Collaborative Experiences

We've all been there. The meeting is going swimmingly and then a meeting participant other than the presenter wants to make a point. They aren't logged in and there isn't time to do so. The room controller's cord can't stretch to them either. Their point is then lost as the meeting fumbles forward to its impending conclusion.

In today's Hybrid Workplace, employees need technology to enable collaboration, not hinder it. That's the mindset DTEN employed when creating the DTEN Mate. With a focus on mobility, this product provides untethered potential for the seamless sharing of ideas.

### First to Market, Innovative Device

DTEN's products are optimized for Zoom to make the access to meeting features very intuitive and easy – all focused around touch. In fact, the DTEN Mate is the only wireless touchscreen Zoom Rooms appliance supporting Zoom Rooms Controller (ZRC) and Zoom Rooms Scheduler (ZRS).

And with the included DTEN Mate Dock, you have contact-free charging when the Mate is placed within the cradle. This ensures that you can hold all day offsites while focusing on the content of the meeting, and not the logistics of hosting the meeting.

## Ergonomic & Lightweight

## Natural Touch Interface

## Flexible Systems Design

Not already using a DTEN device for your Zoom Rooms experience? No problem - the Mate gets along with everyone.

DTEN Mate is compatible with any device using Zoom Rooms so you can take advantage of all these product benefits in Zoom Rooms Controller (ZRC) mode.

The DTEN Mate provides the most accessible option for enhanced productivity, collaboration and control of Zoom Rooms and at a price that's sure to lead any business decision maker to throw a fist pump into the air.

### It Starts with Great Design

- The Mate is wireless so meeting participants can collaborate while walking around the room and/or simply pass the Mate so other participants can take command of the meeting
- Clever weight distribution and automatic screen flip technology enables right- or left-handed users to simultaneously hold and interact with the screen

### Tech That Works as Fast as Your Fingers

- Whether you're a meeting 'pacer' or someone that likes to stay seated, the DTEN Mate allows you to take command of Zoom Rooms meeting from anywhere in the room
- Launch meetings, admit participants, adjust microphone and camera settings start/stop recording, and so much more

### Large Amount of Flexibility

- With its easy-to-install wall-mountable DTEN Mate Dock, the DTEN Mate can be used to reserve meeting rooms and see what other rooms are available within a company's office
- The DTEN Mate provides flexibility - whether you want to use it outside the conference room for scheduling or inside for screen-mirroring and collaboration.

## DTEN Mate (Wi-Fi)

- The only wireless Zoom Rooms Controller (ZRC) available today
- Ready to interface with any other certified Zoom Rooms appliances
- LED 10" Capacitive Multi-touch Display
- Lightweight at less than 1 lb
- DTEN Mate Dock can be positioned at either 20° or 77°
- The DTEN Mate Dock comes with mounts for both walls and door frames
