MR9000 MAX-STREAM™ AC3000 TRI-BAND MESH WiFi 5 ROUTER

Extreme Speed and Coverage. Ultimate Entertainment.

The MR9000 Max Stream™ AC3000 is a Tri-Band router that's perfect for homes who want to maximize their entertainment experience. With up to 3 Gbps of superior speed and coverage up to 3,000 sq ft. you'll always have ultra-fast WiFi throughout your home, and it supports up to 25+ devices. Tri-Band and MU-MIMO technology also make it ideal for simultaneous streaming of HD movies, online gaming, and more. The MR9000 is also mesh-enabled, making it easy to expand your WiFi coverage and eliminate dead zones by simply adding Velop nodes to your existing system. Adding additional nodes will also ensure a great connection with the growing number of WiFi connected devices in your home.

Features & benefits

- **Entertainment powerhouse**
Simultaneous streaming, online gaming, and smart home devices always have superfast WiFi throughout your home.
- **Grows as your needs do**
Add additional coverage by simply adding a Velop Mesh WiFi node anywhere in your home.
- **Easy Setup**
Connect your MR9000 to your modem or gateway and get your WiFi running with the Linksys App. Simply name your network and choose a password.
- **Works with all internet service providers**
Enjoy flawless WiFi with any internet service provider.
- **Security controls with the Linksys app**
Easily limit internet usage and know your network is always protected.
- **Automatic firmware updates**
Keeps your system up to date and secure.

Package Includes:

- MR9000
- Ethernet Cable
- External Antennas (2 Tri-Band, 2 Single-Band)
- Power Adapter
- Quick Start Guide
- Printed Documentation

Tech Specs:

WiFi AC3000 867 Mbps (1st 5 GHz) + 1733 Mbps (2nd 5 GHz) + 400 Mbps (2.4 GHz)
IEEE a/b/g/n/ac Advanced Beamforming+
technology Seamless roaming technology

Processor and Memory for Faster Processing:

716 MHz Quad Core
256 MB Flash and 512 MB SD RAM

Antennas for Expanded Coverage:

Two Tri-Band and two Single-Band external fixed antennas with high-power amplifiers

Wired Connectivity for WAN and LAN Connectivity:

5 Gigabit Ethernet Ports:
1x WAN
4x LAN

Bluetooth® 4.0/LE for Secure and Easy App-Based Setup

Security:

WPA2-Personal

Dimensions:

213.7 mm x 161.8 mm x 54.8 mm
(without antennas)

Required for Setup:

1. Internet connection with a modem or modem-router
2. Supported iOS or Android™ devices with data connection. See www.linksys.com/velop/requirements
3. The MR9000 serves as the master router and must connect directly to your modem to create your network.

* Maximum performance derived from IEEE Standard 802.11 specifications. Actual performance may vary, including lower wireless network capacity, data throughput rate, speed, range, and coverage. Performance depends upon many factors, conditions and variables, including building materials and construction, volume of network traffic, mix of wireless products used, interference, and other adverse conditions. In order to achieve the best performance, this product must be used with compatible AC3000 wireless devices. The standard transmission rates - 867/1733 Mbps (1st 5 GHz and 2nd 5 GHz radios), 400 Mbps (2.4 GHz) - are the physical data rates. Actual data throughput will be lower and may depend on the mix of wireless products used and external factors.

Specifications are subject to change without notice. An active, customer-purchased Internet Service Provider broadband account is required for connection of this product and other connected devices to the Internet. Some devices may require additional wireless adapters or an Ethernet cable to connect.

May require a software/firmware update available for download at linksys.com/support.
