WALL MOUNT SERVER ENCLOSURE USER MANUAL

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

VEVOR®

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Thank you for purchasing the Performance Series Wall Mount Cabinet from VEVOR.

Every effort has been made to ensure the accuracy of the information in this product manual.

IMPORTANT SAFETY INSTRUCTIONS

Keep the enclosure free from moisture, extremes of temperature, combustible substances and gases, conductive pollutants, dust, and direct sunlight in a controlled indoor environment. Allow sufficient room for appropriate ventilation at the front and back of the enclosure. The enclosure's external ventilation openings must not be blocked, covered, or inserted with items.

Please call or email us if you have any concerns about the installation or use of your product. Please inspect the product for any missing or defective components. Ask VEVOR for help if any component is broken or missing. If the product has been affected, do not try to install or use it. To prevent harm during assembly, place the product contents on cardboard or another safe surface. Improper installation or use of this product can result in product damage, other damage to equipment, or personal injury.

It is advised that the installation be performed by a professional installer. VEVOR cannot be held liable for equipment damage or physical injuries resulting from inappropriate product usage or installation. Please ensure that the equipment stored/mounted should not exceed the stated weight capacity.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to VEVOR. These references are provided for informational purposes only and do not represent an endorsement of a

product or service by VEVOR, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgment elsewhere in the body of this document, VEVOR hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related document are the property of their respective holders.

Limitations of Liability: VEVOR will not be responsible for any injury or damage, whether direct or indirect, special, punitive, incidental, or consequential damages (including, but not limited to, lost profits or revenue, loss of use, lost business opportunities, or loss of goodwill), or the costs of procuring substitute products, arising out of or in connection with the use of the product. In no case can seller's gross accumulated liability, arising from all causes of action and theories of liability, exceed the total sums actually charged by customer to seller under the order giving rise to any liability hereunder.

PARTS IDENTIFICATION

1: Insert the Left Frame (#5) and the Right Frame (#6) into the Bottom Panel (#2), Secure with M5 Screws (A) .

2: Place the Top Panel (#1) onto the Left Frame (#5) and the Right Frame (#6). Secure with M5 Screws(A) .

3: Install the 4 Vertical Mounting Rails (#9) into place at the desired depth using M5 Screws(A) for each Vertical Mounting Rails (#9).

Note: Please consider the equipment you plan to install within the

enclosure while deciding the appropriate mounting depth. Make sure the rail depth on both sides of the cabinet is the same.

4: Install the Pallet (#10) into place at the desired height ,Secure with M6 Hex Head Screws (B) and M6 Cage Nuts (C).

5: Install the Side Panel Latches (D) and the Side Panel Lock Kit (E) on the two Side Panels (#4).

6: Install the two Side Panels (#4) into place using the Side Panel Latches(E). Once each Side Panel (#4) is in place, check to see whether the Side Panel Lock locks properly.

7: Install the Front Door Lock (F) on the Front Door (#3).

8: Position the Front Door (#3) so that the top and bottom pins are aligned with the hinge hole located in the enclosure. Insert the bottom fixed pin into the bottom hinge hole. Pull the top spring pin down into the hole in the top corner and release it.

9: Install the Rear panel (#7) and the Rear suspension (#8) ,Secure with M5 Screws(A) .

WALL MOUNTING THE ENCLOSURE

1: Attach the rack to a wall or other suitable mounting surface using M10 Expansion screws(G). The mounting hole distance is shown in Fig, apart to accommodate standard stud placement as reflected in the diagram.

Warning: Do not attempt to mount to wall when equipment is mounted inside the enclosure. The enclosure has a weight capacity of 100 pounds. Make sure the type of wall structure and mounting hardware that you are using will properly support the weight of the enclosure and equipment. For the safety, two people to install.
