

# Huddly S1

For small to medium  
meeting rooms

# Huddly S1

## Product Information

## Specifications

### Image

- 4K image sensor
- 12 Megapixels 1/2.3" CMOS sensor
- 1080p Full HD @ 30 fps
- 720p HD @ 30fps
- Up to 4x digital zoom
- 16:9 aspect ratio output
- 180° image auto-flip

### Optics

- Ultra-wide angle glass optics
- Horizontal field of view 120°
- Vertical field of view 90°
- Diagonal field of view 150°
- f/2.8 aperture

### System & Hardware Requirements

Any operating system with built-in USB plug and play support, including:

- Windows 10 or later
- macOS
- ChromeOS

### Connectivity

- Connector: RJ45
- Cable: Cat 5e/6/7
- USB Type-C port supporting USB 2/3 (via USB Adapter)

### Hardware

- High-performance VPU with neural compute engine
- Aluminum body
- Camera tripod mount

### Color

Matte Black

### Wall & Shelf Mount (Included)

- Made for placement on wall or shelf
- Weight of Mount: 120 g/ 0.2 lbs

### Packaging Dimensions

L: 274 mm x W: 184 mm x H: 93 mm

# Huddly S1

## Product Information

## Features

### Huddly Director

Huddly Director edits your meetings in real time using AI. Switching between different shot types, it focuses on the speaker, captures non-verbal reactions from listeners, and gives a full overview of the room.

### Perspective Correction

Corrects wide-angle lens and perspective distortions in real-time, delivering a lifelike view of people and spaces. Allows flexible camera placement with tilt up or down.

### Framing Zone

Lets you control your framing area by defining the dimensions of your meeting space. This way, only meeting participants are detected and framed.

### Genius Framing

The camera detects the people in its entire field of view and intelligently frames them for the best experience.

### Digital Pan/Tilt/Zoom

The camera has no moving parts, allowing Pan, Tilt, and Zoom functions to be adjusted smoothly, silently and instantly.

### Software-Upgradable

The camera gets even smarter over time with regular software enhancements and new intelligent features.

### Power over Ethernet

The camera receives power and transmits data through Power over Ethernet. Installation is reliable and flexible in regard to cable length.

### Image Enhancement

The camera automatically corrects white balance, color, and optical aberration. It reduces image noise through texture-preserving luma filtering and wide-area chroma filtering and adapts to poor lighting conditions with Dynamic Light Optimization.

### Portrait Lighting

The camera uses AI to understand the lighting conditions in the image. It automatically adjusts exposure to ensure that faces are well-lit and facial expressions are clearly visible.

### InSights Analytics API

The camera can detect and count the people within its entire field of view, with high-quality analytics data accessible via the Huddly InSights API.

## Room Examples

# Huddly USB Adapter

**The Huddly USB Adapter enables plug-and-play connectivity between Huddly S1 and your meeting room computer.**

## Features

- USB plug and play for Huddly S1
- USB Video Class (UVC) support
- PoE output to power connected camera

## Connectivity

- USB Type-C port supporting USB 2/3 (to host computer)
- RJ45 gigabit Ethernet port to camera
- DC power connector

## Power Requirements

Requires external 5V 3A power using the included external AC/DC 5V 4A power adapter.

## Hardware Specifications

- Aluminum body
- Built-in magnet for easy mounting to metal
- Wall mount plate (included)

## Color

Matte Black

## System & Hardware Requirements

Any operating system with built-in USB plug and play support, including:

- Windows 10 or later
- macOS
- ChromeOS

# Huddly USB Adapter

## Connectivity

You can easily install Huddly S1 in any room with a single Ethernet cable of up to 100 meters. Huddly USB Adapter comes with both USB-C and USB-A cables for connecting to meeting room devices.
